RE: City of Southport Stormwater Mapping Project

Dear Homeowner:

The City of Southport is conducting a stormwater infrastructure mapping project to identify the location of stormwater drainage features within the City. As part of the project, survey crews will be collecting data during the months of December, January, and February to locate existing drainage structures and outfalls.

In performing this work, the consultant (WK Dickson) and survey crew may need to come onto a portion of your property to locate existing stormwater drainage features so that we may have an accurate description of existing conditions. If you object to someone entering onto your property, you may contact me at the number listed below.

The City looks forward to working with you during this process. If you have any questions regarding this project please email me at tzilinek@cityofsouthport.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tom Zilinek", is written over a blue circular stamp.

Tom Zilinek, PE
City Engineer
City of Southport
